

hebel[®]
sound**barrier**

Stunning urban design
without **creative** barriers

creativity should have **no limits**

Designed for the **local environment**

Local flora

Creative routing of tree trunks and foliage blends this Soundbarrier with the surrounding flora.

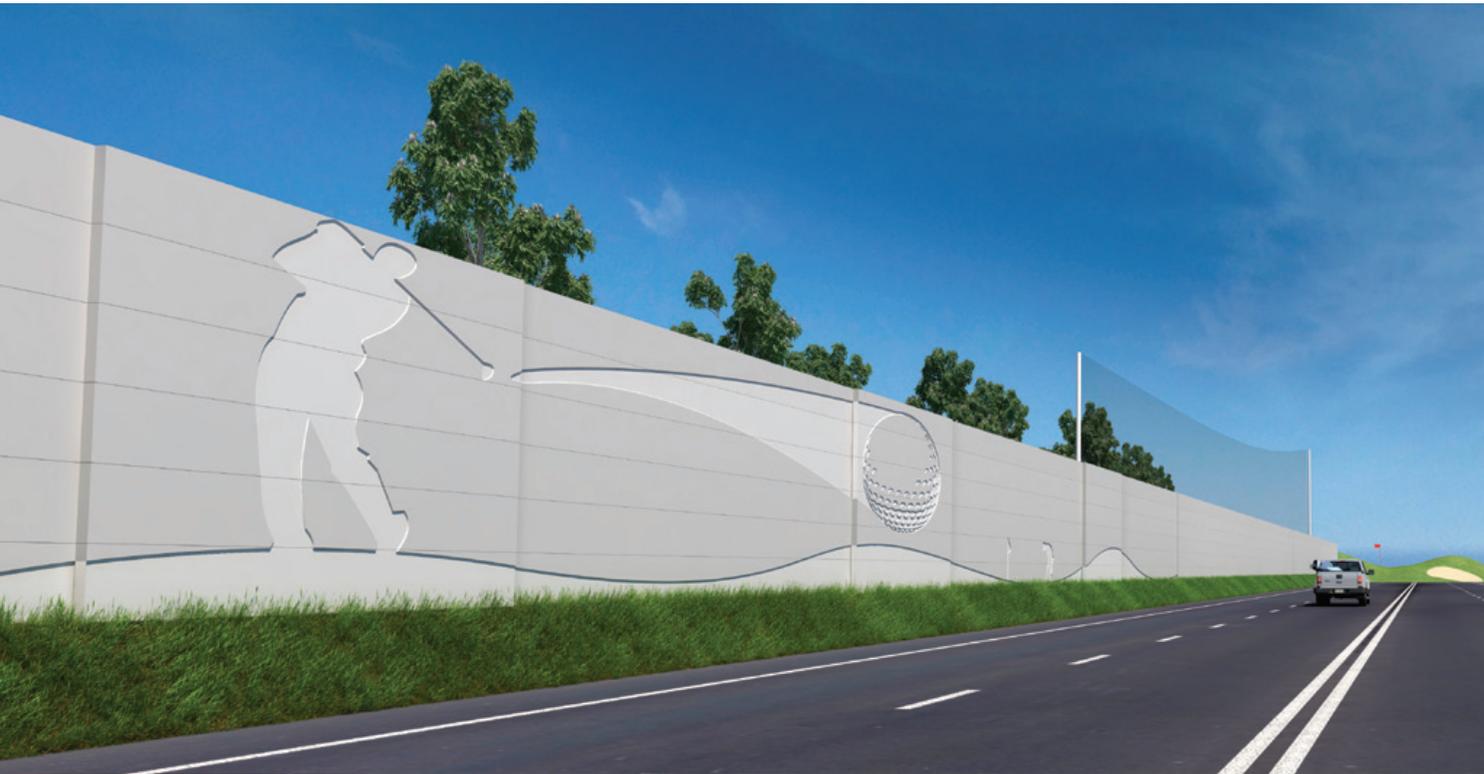

Inner city transit

Simple geometric patterns and architectural shadow lines add a sense of natural flow and direction.

Tired? Take a break

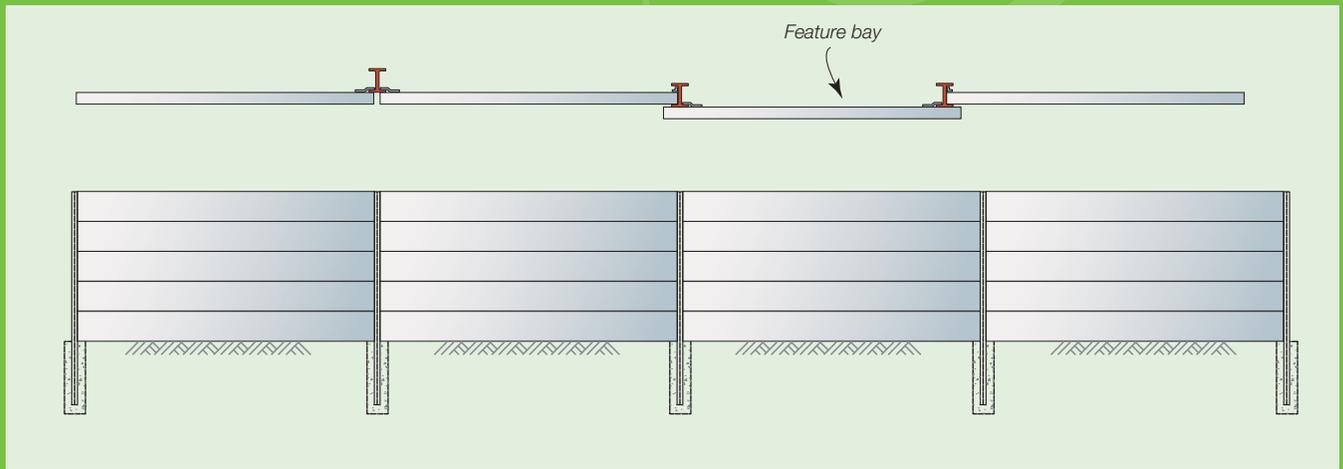

Simple bold text with graphics provide an effective safety message.

Teeing off?

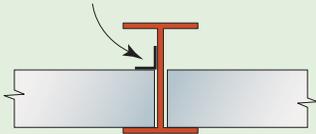

The use of shadows and perspective create a relaxing mood.

Soundbarrier Construction

Soundbarrier Construction

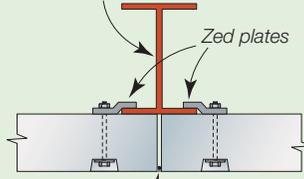

*Slotted steel angles
to secure panels*

Steel post support

Zed plates

*Backing rod &
polyurethane sealant*

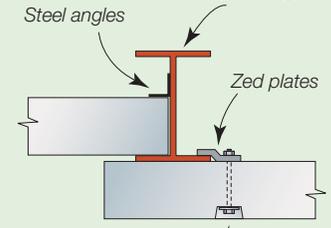

Steel post support

Steel angles

Zed plates

*Bolt through with
oversized washer*

from concept to reality

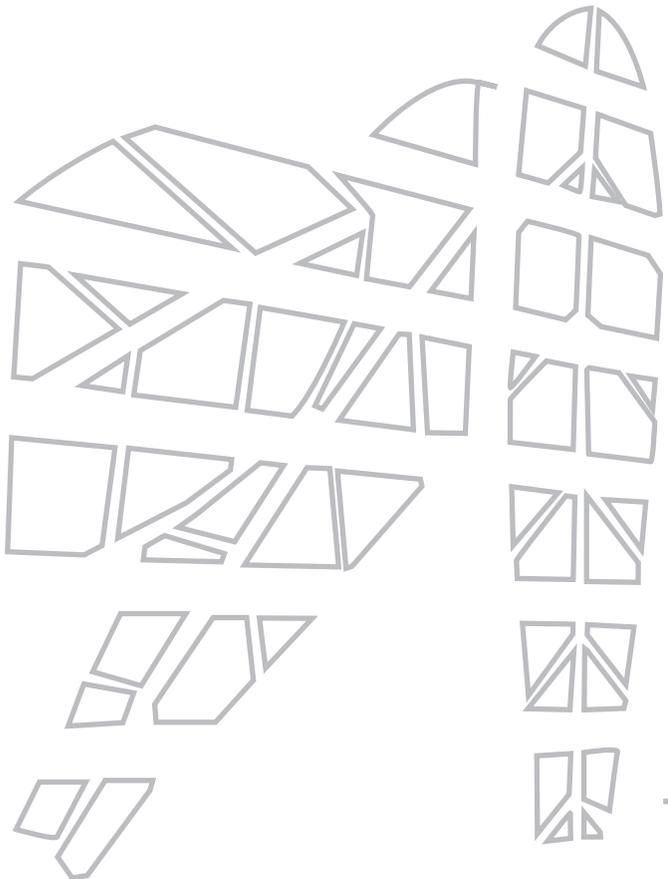

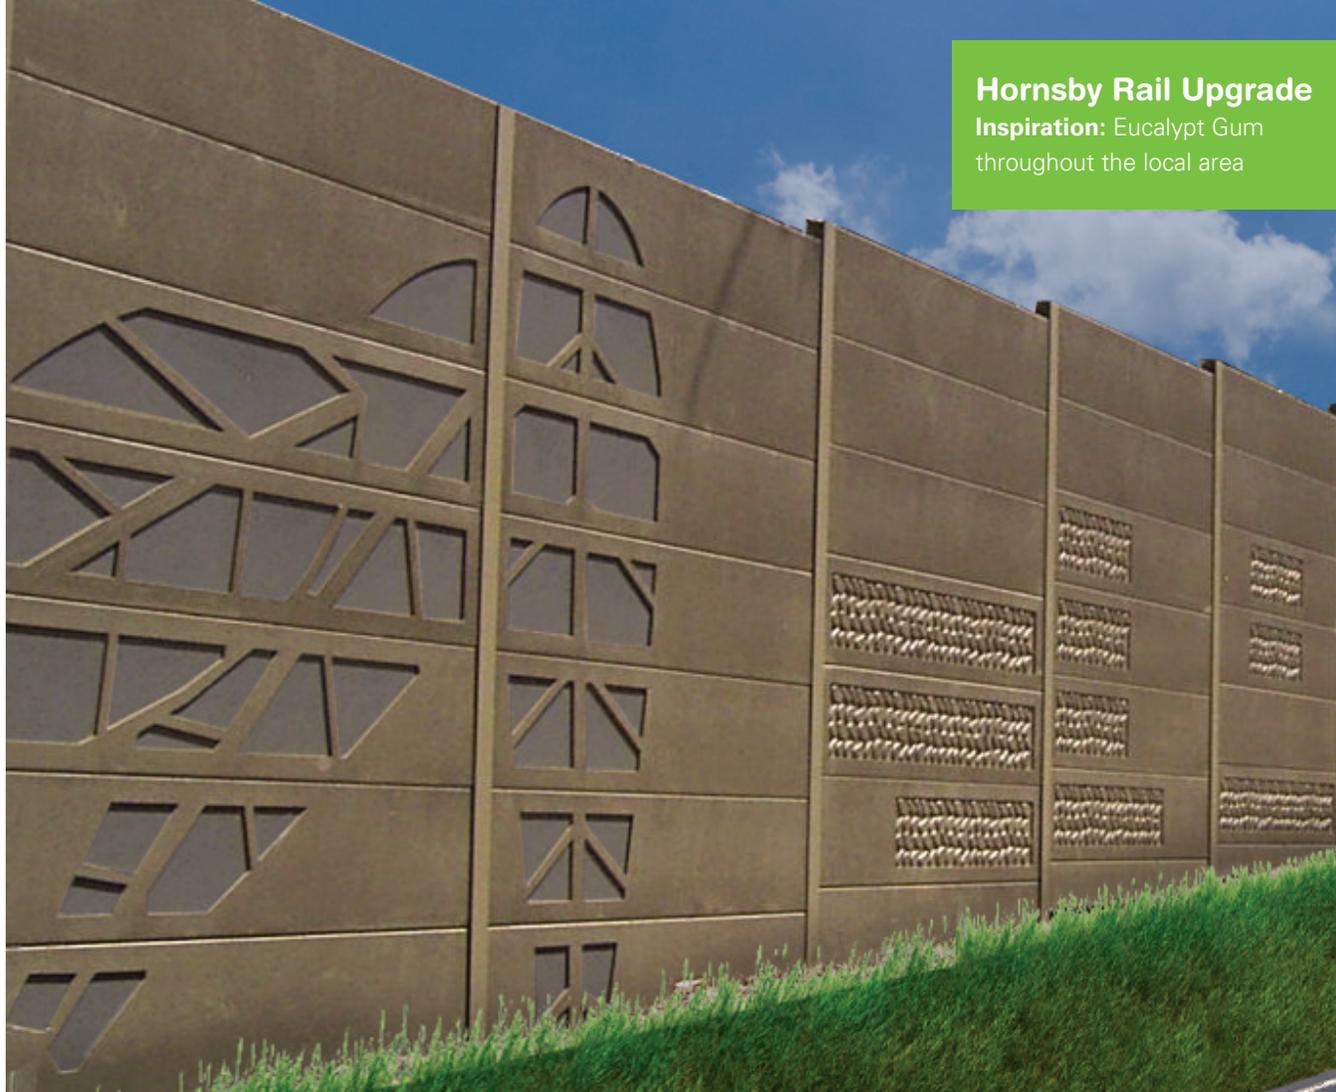

M2 Motorway Upgrade

Inspiration: Natural flow
and direction

Hornsby Rail Upgrade

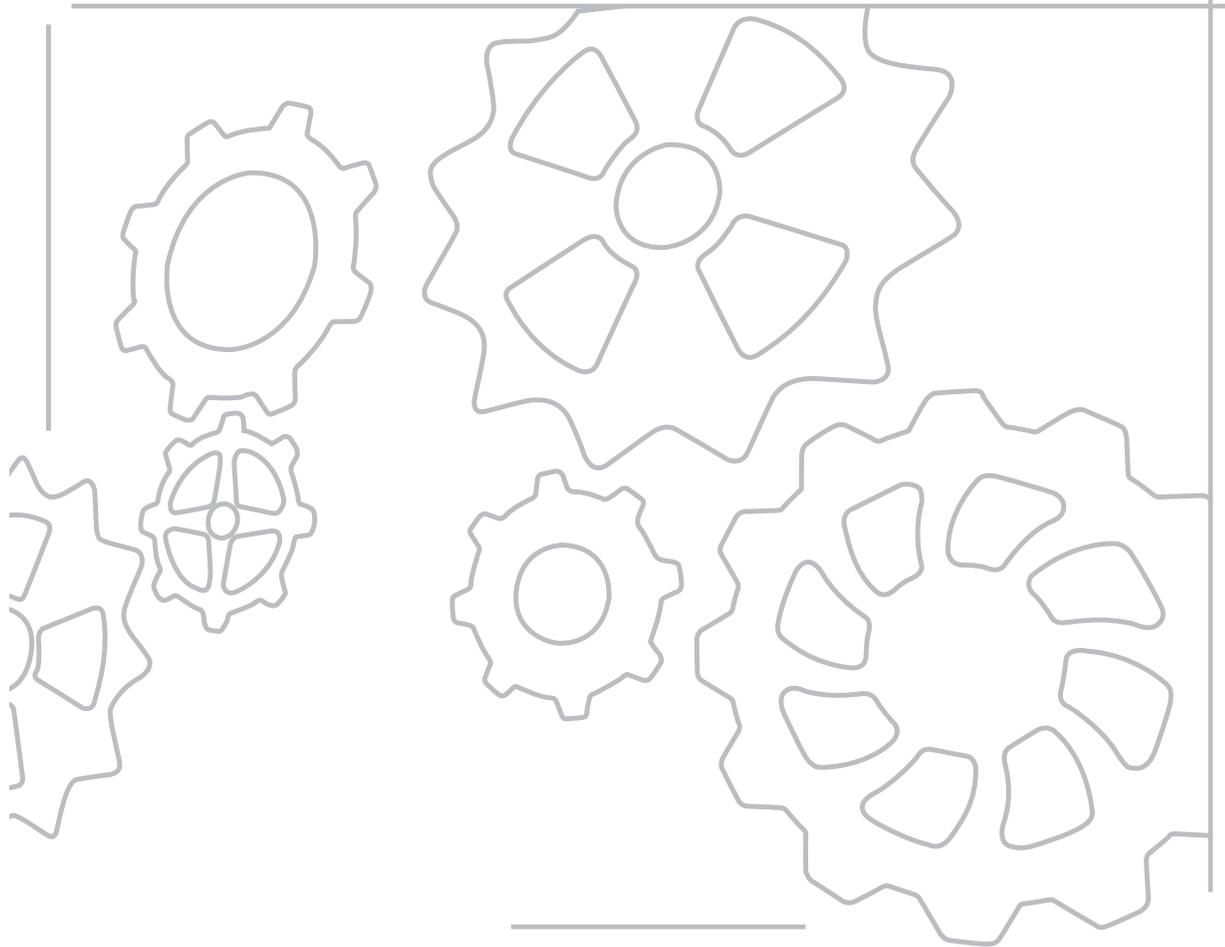

Inspiration: Eucalypt Gum throughout the local area

**Australian Rail Track
Corp (ARTC) Bankstown**
Inspiration: Local eucalypt gum nuts

**Australian Rail Track Corp
(ARTC) Liverpool**

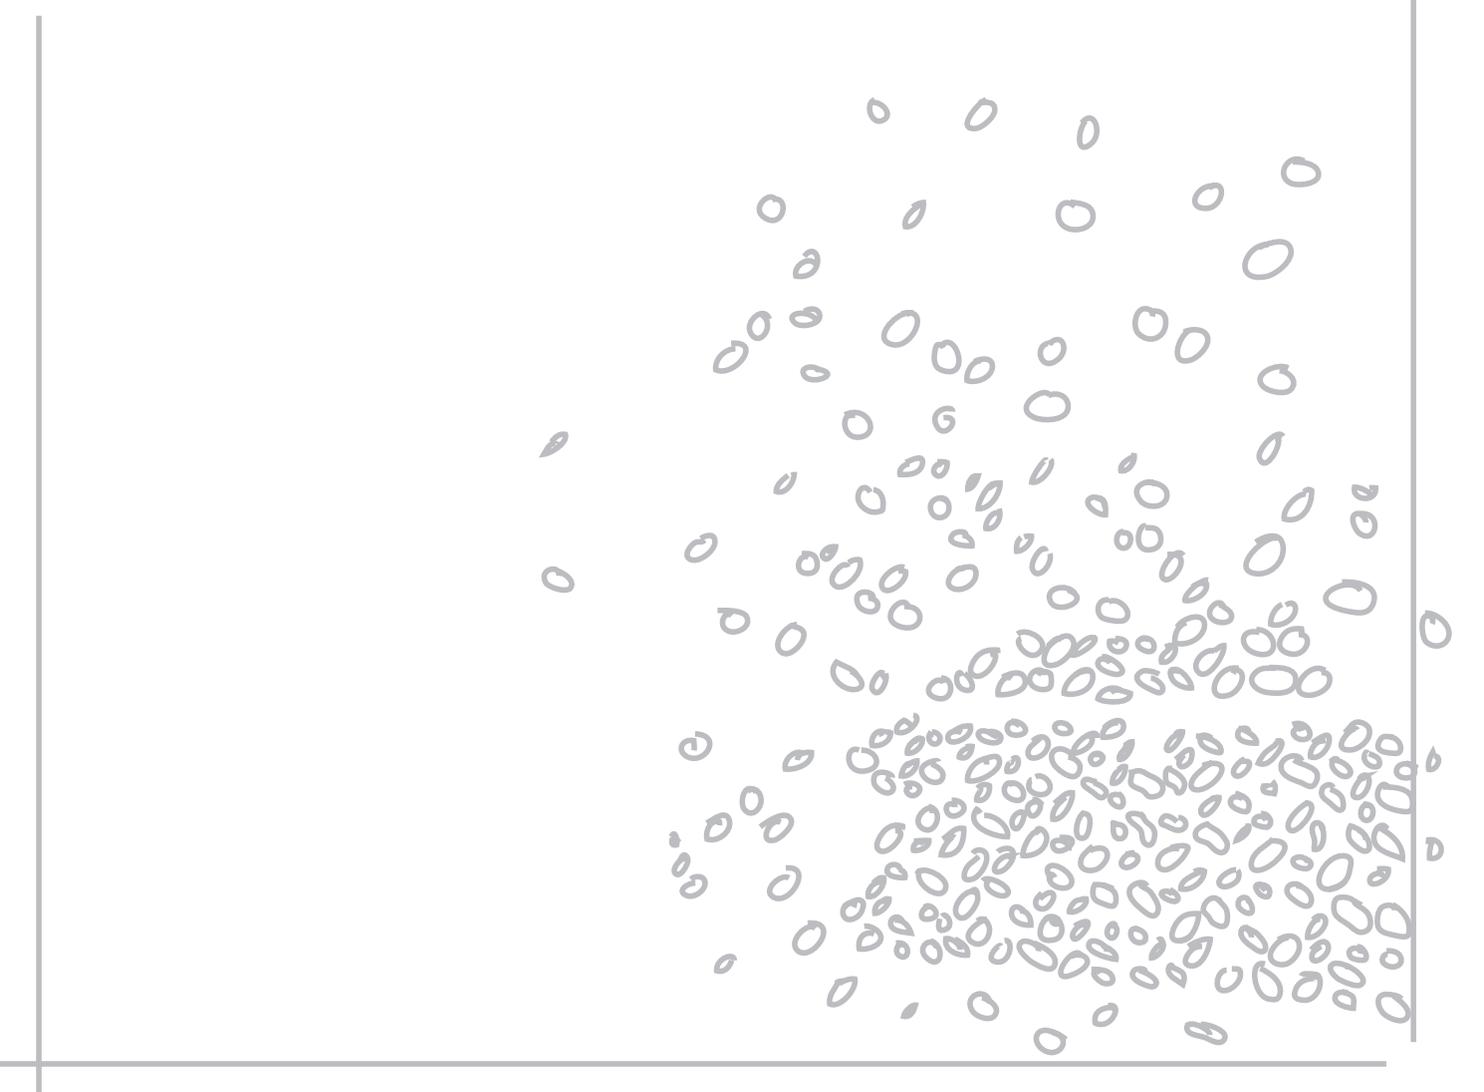

Inspiration: From the industrial hub
of the south west

**Australian Rail Track Corp
(ARTC) Campbelltown**

Inspiration: Campbelltown City Logo
depiction of an 'area on the move'

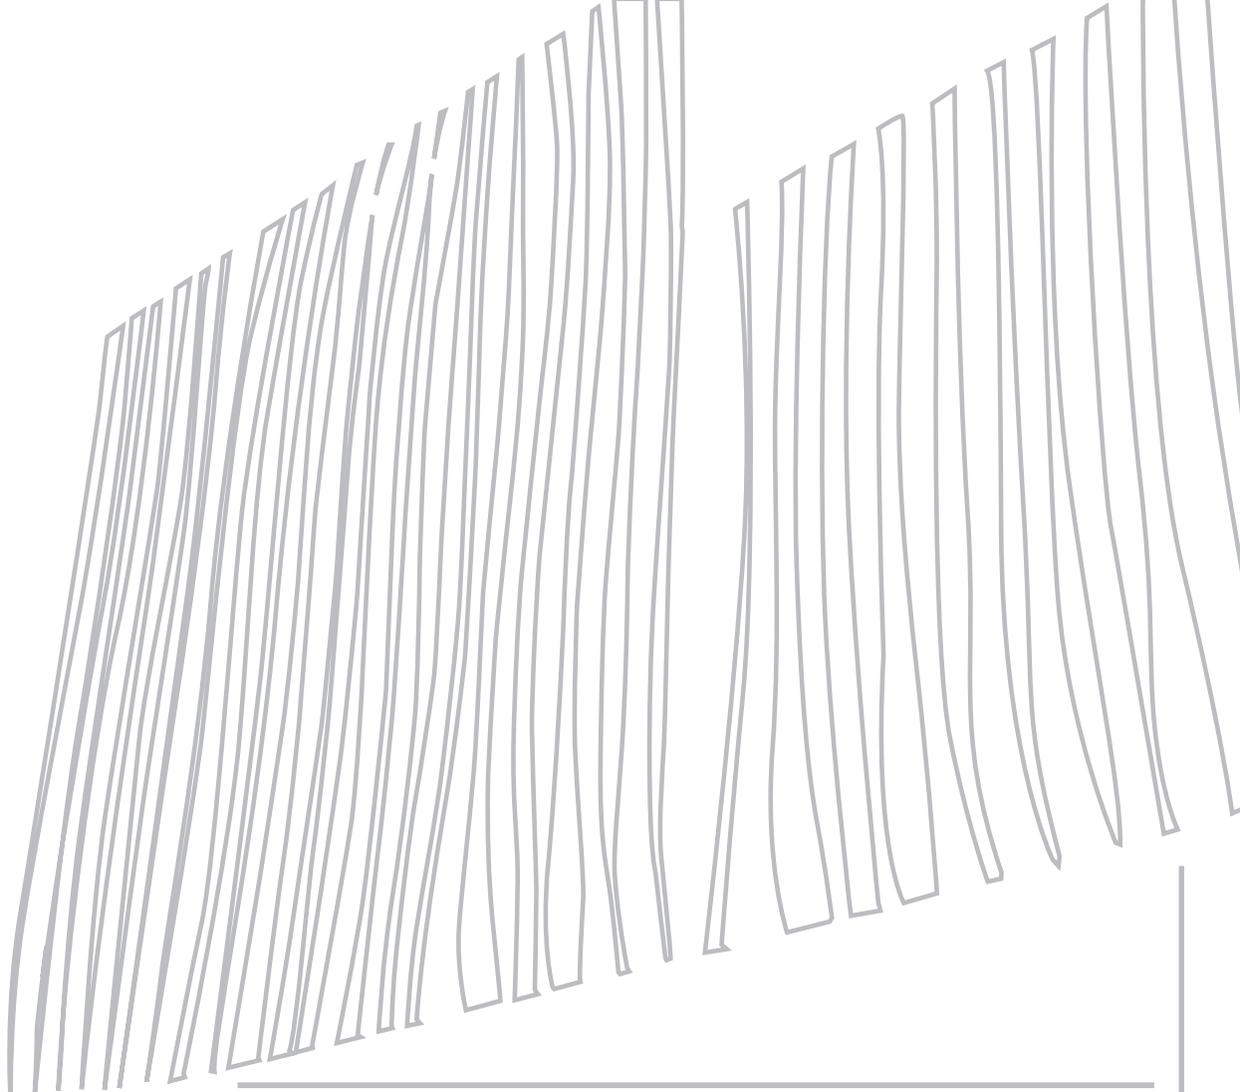

Kingston Bypass Tasmania

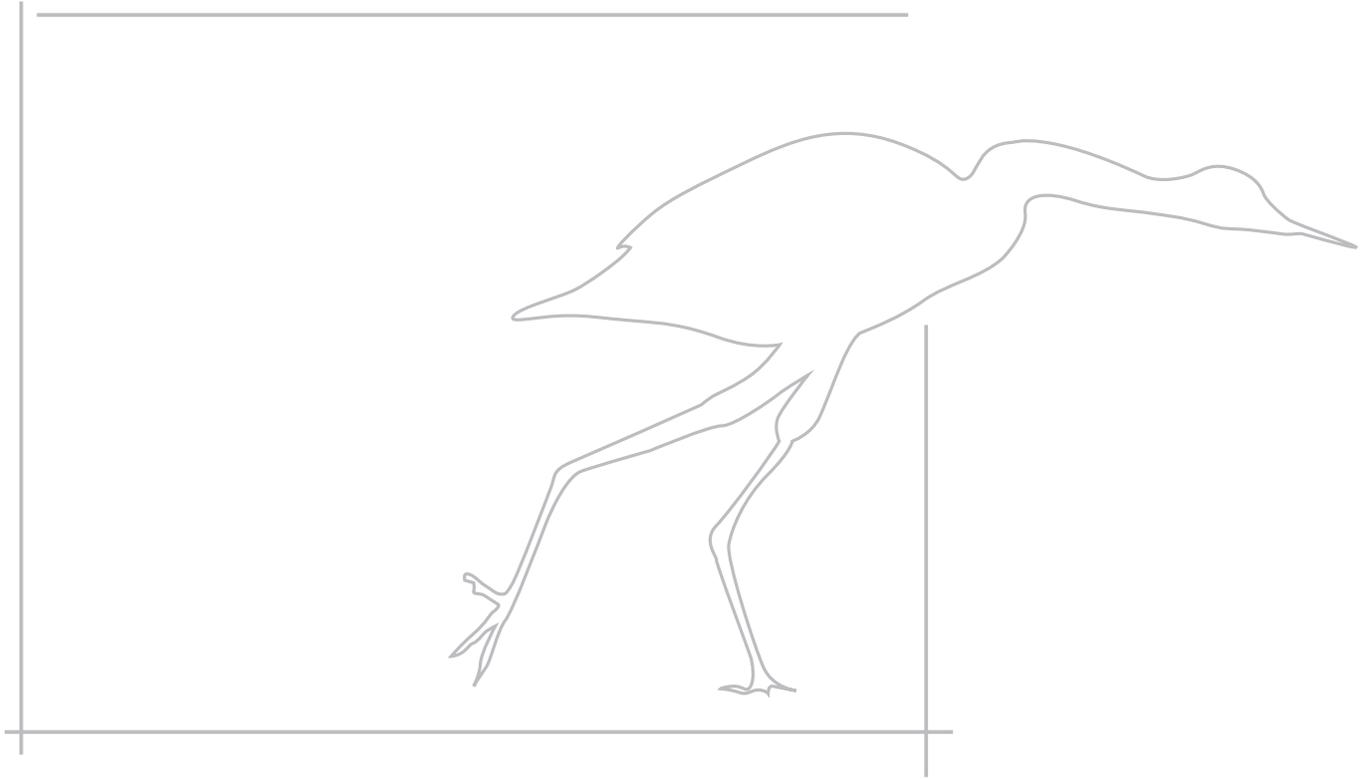

Inspiration: River stones from the region

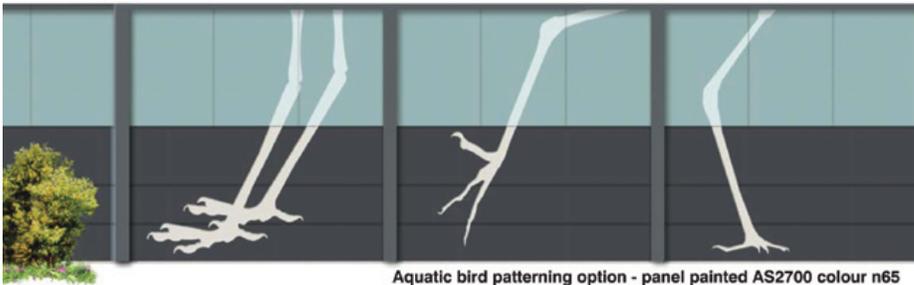

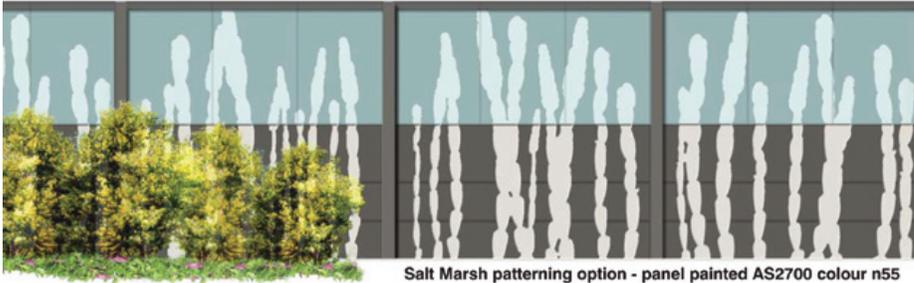

Kingston Bypass Tasmania

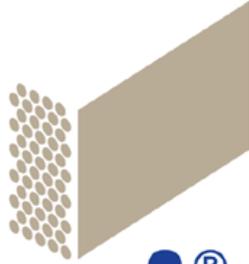

Inspiration: Tasmanian Tiger stripes

Sydney Ports

Inspiration: Aquatic birds and reeds in the local area
